Subject: Extension Request - Case No. 26 113169 CZ

Dear Code Compliance Officer,

I am requesting an extension of the compliance deadline for Case No. 26 113169 CZ.

Any RV use on the property was temporary or for storage. The occupants reside in the house and not permanently in an RV.

We are actively cleaning up the property and removing unwanted materials. Progress has been slower than expected because local waste disposal and dumpster service options have been limited, but cleanup is ongoing.

All vehicles on the property are either operational or actively being repaired. None have been intentionally abandoned.

I would also appreciate copies of any inspection photos, notes, and documentation identifying the specific conditions or vehicles cited in the notice.

Thank you for your consideration. We are working in good faith to address the County's concerns and would appreciate additional time to complete cleanup efforts.

Sincerely,

Detailed Extension and Response Letter

Subject: Request for Extension and Response to Notice of Violation (Case No. 26 113169 CZ)

Dear Code Compliance Officer,

I am writing regarding the Notice of Violation for Case No. 26 113169 CZ, concerning the property at 17943 Robinson Lane SW, Rochester, WA.

I respectfully request an extension of the compliance deadline so I can continue working toward resolving the concerns identified in the notice.

Regarding the allegation of living in a recreational vehicle, any occupancy of an RV on the property has been temporary in nature or the RV has been used for storage purposes. The individuals associated with the property reside in the house, not permanently in an RV.

Regarding the concerns about vehicles, while there are vehicles and other items on the property that the County may view as needing attention, we are actively working to clean up and remove unnecessary materials. This process has been challenging because local waste service issues have limited our ability to obtain regular disposal service and dumpster rental options. Despite these difficulties, cleanup efforts are ongoing and progress is being made.

In addition, all vehicles on the property are either operational or actively being repaired. None of the vehicles have been intentionally abandoned, and we are working to improve the overall condition of the property.

We are also in the process of pursuing permits and approvals related to property improvements, including a privacy fence. We are attempting to work cooperatively with the County regarding future property use and compliance requirements.

To better understand the County's concerns, I respectfully request copies of:

- Inspection photographs
- Inspection notes and reports
- Documentation identifying specific vehicles alleged to be junk vehicles
- Any additional evidence supporting the cited violations
- Information regarding available appeal or review procedures

We are committed to working cooperatively with the County and would appreciate additional time to continue cleanup efforts, gather documentation, and review the allegations.

Thank you for your consideration of this extension request. I look forward to your response.

Sincerely,
Margo T. Ray

One additional suggestion: be careful about mentioning a future RV living arrangement in your first response.
